

## NeuroSense to Participate in Upcoming ALS Conferences: PACTALS in Malaysia and NEALS in the U.S.

**Company to deliver poster presentation regarding its PARADIGM Phase 2b ALS study at NEALS**

CAMBRIDGE, Mass., Sept. 14, 2023 /PRNewswire/ -- [NeuroSense Therapeutics Ltd.](#) (NASDAQ: NRSN) ("NeuroSense"), a company developing treatments for severe neurodegenerative diseases, announced today it will participate in the following ALS conferences.

### **3<sup>rd</sup> International Pan-Asian Consortium for Treatment and Research in ALS (PACTALS) 2023**

September 15-16, 2023

Kuala Lumpur, Malaysia

Attending: Dr. Ferenc Tracik, NeuroSense's Chief Medical Officer

### **22<sup>nd</sup> Annual Northeast Amyotrophic Lateral Sclerosis (NEALS) Meeting**

October 4-6, 2023

Clearwater, Florida, U.S.

Attending: Dr. Shiran Zimri, NeuroSense's VP R&D

NeuroSense will deliver a poster presentation regarding PARADIGM with a focus on the methodologies and biomarkers used in the Phase 2b study.

NeuroSense completed patient enrollment in PARADIGM for its combination drug therapy, PrimeC, and expects to report topline results in Q4 2023. The clinical trial endpoints include assessment of ALS biomarkers, evaluation of clinical efficacy, and improvement in quality of life to demonstrate an attenuation in disease progression. Over 96% of participants who completed the trial chose to continue in the study and be treated with PrimeC through a 12-month open-label extension.

### **About NeuroSense**

NeuroSense Therapeutics, Ltd. is a clinical-stage biotechnology company focused on discovering and developing treatments for patients suffering from debilitating neurodegenerative diseases. NeuroSense believes that these diseases, which include amyotrophic lateral sclerosis (ALS), Alzheimer's disease and Parkinson's disease, among others, represent one of the most significant unmet medical needs of our time, with limited effective therapeutic options available for patients to date. Due to the complexity of neurodegenerative diseases and based on strong scientific research on a large panel of related biomarkers, NeuroSense's strategy is to develop combined therapies targeting multiple pathways associated with these diseases.

### **Forward-Looking Statements**

*This press release contains "forward-looking statements" that are subject to substantial risks and uncertainties. All statements, other than statements of historical fact, contained in this press release are forward-looking statements. Forward-looking statements contained in this press release may be identified by the use of words such as "anticipate," "believe," "contemplate," "could," "estimate," "expect," "intend," "seek," "may," "might," "plan," "potential," "predict," "project," "target," "aim," "should," "will," "would," or the negative of these words or other similar expressions, although not all forward-looking statements contain these words. Forward-looking statements are based on NeuroSense Therapeutics' current expectations and are subject to inherent uncertainties, risks and assumptions that are difficult to predict and include statements regarding the timing of top-line results of, and the results of, the PARADIGM clinical trial. Further, forward-looking statements are subject to a number of risks and uncertainties as a result of which actual results could differ materially and adversely from those anticipated or implied in the forward looking statements. These risks include a delay in the reporting of top-line results from PARADIGM clinical trial; greater than anticipated costs and expenses; the potential for PrimeC to safely and effectively target ALS; preclinical and clinical data for PrimeC; the timing of current and future clinical trials, timing for reporting data; the nature, strategy and focus of the company and further updates with respect thereto; the development and commercial potential of any product candidates of the company; and other risks and uncertainties set forth in NeuroSense's filings with the Securities and Exchange Commission (SEC), including NeuroSense's Annual Report on Form 20-F filed with the SEC on March 22, 2023. Forward-looking statements contained in this announcement are made as of this date, and NeuroSense Therapeutics Ltd. undertakes no duty to update such information except as required under applicable law.*
